Variety description

FIREBIRD belongs to the absolutely premium Lolium grass varieties. An extremely fine leaf and slow growth set FIREBIRD apart. This variety can be used for all types of lawns. Even for ornamental lawns, this new variety can be used in RSM mixtures. Thanks to its high resilience, FIREBIRD is a top-grade cultivar especially for hard-wearing lawns and also recreational lawns. FIREBIRD develops an extremely dense sward and can thus suppress weeds very well (weed suppression grade 8).
